MALE ROD ENDS DUNLOP

**DUNLOP** **RM SERIES: RM - RMS - RM SS**

**Description:**  
RM series is our 3-piece thin series range of male rod ends that have been specifically designed for use with other linkage components such as clevises etc. The RM Series design allows the rod ends head and ball to neatly slide inside of its mating clevises fork end, ideal for fitting to pre-assembled linkages. Metric and imperial bore and thread sizes are available. Standard product is supplied with a frictional liner on the bearing race, recommended for applications where misalignment may arise in an assembly.
