Description

LOCTITE® LB 8025 is a silver anti-seize lubricant composed of mineral oil, lithium soap, graphite, aluminum, nickel and EP-additives for easy disassembly of parts after exposure to high temperatures. It is used on screws, bolts, grooves etc. It prevents tribo-contact at high temperatures and it is typically used in applications with an operating range of -22 °F to +2,192 °F (-30 °C to +1,200 °C).

Avantages

Composed of mineral oil, lithium soap, graphite, aluminum, nickel and EP-additives for easy disassembly of parts
Used on screws, bolts, grooves etc.
Prevents tribo-contact at high temperatures
Operating range of -22 °F to +2,192 °F (-30 °C to +1,200 °C)

Caractéristiques

Anti-seize lubricant based on mineral oil, lithium soap, graphite, aluminum, nickel and EP-additives for easy disassembly of parts after high temperatures.
